

RAZAN ALFAR

FULL-STACK DEVELOPER

PERSONAL PROFILE

I'm a fresh graduate engineer, passionate with web development, having strong problem-solving and communication skills, excellent in English.
I love to learn new things.

PROJECTS

Front-End Projects

- These are front-end webpages I designed.
- Languages: HTML,CSS,JS
- Frameworks: Bootstrap

Back-End Project

- I redesigned an admin dashboard then connected a database with it, to add edit and delete items .
- Languages: PHP,MYSQL

Machine Learning Tutorial App

Graduation Project | June.2022

- Android Tutorial App contains scientific calculator. This calculator uses Bayes' Theorem to make probability calculation.
- Used Android Studio IDE, Java language.

WORK EXPERIENCE

Technical Support Trainee

ORANGE | Nov. 2021 – Jan. 2022

- My training was in End-User/IT Department, as a Technical Support Trainee.
- Orange Training Certification.
